

Eagle (8 conventional or 2 big bales)

OVERVIEW

The name “Browns” has been synonymous with flat 8 bale grabs for over 50 years.

The Eagle is a heavy-duty bale grab, suitable for 8 conventional bales or two big bales. It is hydraulically controlled and fitted with sixteen claws, fixed in a rugged steel frame with a single side bar to align the bales. It will fit most types of tractor loader or telescopic loader.

FEATURES

- 16 hardwearing cast steel claws for strength
- Robust box section design
- Guide rail can be mounted on either side of the frame to align the bales
- Double acting hydraulic rams for greater bale penetration
- All claws enter the bales simultaneously
- Parking leg
- For use with telehandlers and tractor front loaders
- Hoses and couplings included
- Brackets sold separately
