

Eagle (8 Conventional / 2 Big Bales)

OVERVIEW

The **Eagle Bale Grab** is a robust, heavy-duty solution designed to handle 8 conventional bales or two large bales with ease.

Hydraulically controlled, the Eagle is equipped with sixteen strong claws, all securely fixed within a durable steel frame. A single side bar ensures proper alignment and easy handling of the bales. This versatile grab is compatible with most tractor loaders and telescopic loaders, making it an essential tool for efficient and secure bale handling on the farm.

FEATURES

- 16 durable, hardwearing cast steel claws for enhanced strength and reliability

- Robust box-section design for added durability and performance
- Reversible guide rail can be mounted on either side of the frame to align bales
- Double-acting hydraulic rams provide superior bale penetration
- All claws engage the bales simultaneously for efficient handling
- Equipped with a parking leg for safe and convenient storage
- Compatible with telehandlers and tractor front loaders
- Includes hoses and couplings for quick, easy setup
- Brackets available separately
