

Grassmaster (Grass Harrows)

OVERVIEW

The Browns Grassmaster is a highly effective tool designed for the ongoing care and revitalization of existing pastures. Engineered to deliver multiple benefits in a single pass, it removes dead grass, aerates the sward, reduces thatch and moss buildup, and promotes healthy, vigorous regrowth. It also efficiently breaks up and distributes manure and molehills, improving pasture uniformity and soil contact.

For enhanced functionality, the Grassmaster can be used in combination with an air seeder—making it ideal for overseeding tired pastures or reseeding new grassland.

High-quality, low-input grassland is a vital asset for any livestock operation. The Browns Grassmaster helps farmers maintain productive, cost-effective grazing and forage systems with minimal disruption and maximum results.

FEATURES

- Galvanised options available
- Robust heavy-duty frame for long-lasting performance
- High-quality 8mm oil-hardened steel spring tines for durability and flexibility
- Four rows of closely spaced tines for thorough coverage and effective pasture conditioning
- Tine spacing set at 25mm for optimal surface engagement
- Turnbuckle tine angle adjustment to control tine aggression based on field conditions
- Mounted floating sub-frames ensure consistent ground contact and contour-following across uneven terrain
- Integrated spring dampers to reduce vibration and enhance operational stability
- Two height-adjustable pneumatic tyres (standard four tyres on 6m model) for smooth transport and operation
- 5m and 6m models feature hydraulic folding for convenient transport and storage
- Steps Kit not included as standard

SPECIFICATIONS

Grassmaster 2m (Rigid Frame)

Code	65745
Working Width	2065 mm
Transport Width	2065 mm
Parked Height	1650 mm
Length	1745 mm
Tines	80
Weight	280 kg
Depth Wheels	2
Frame	Rigid
Steps Kit	Not included as standard
Price	£2760.00

Grassmaster 3m (Rigid Frame)

Code	65755

Working Width	2950mm
Transport Width	2950mm
Parked Height	1650 mm
Length	1745 mm
Tines	112
Weight	365kg
Depth Wheels	2
Frame	Rigid
Steps Kit	Not included as standard
Price	£3675.00

Grassmaster 5m (Hydraulic Frame)

Code	65765
Working_width	4950mm
Transport_width	2500mm
Parked_height	2350mm
Length	1745mm
Tines	192
Weight	595kg
Depth Wheels	2
Frame	Hydraulically Folding
Steps Kit	Not included as standard
Price	£6100.00

Grassmaster 6m (Hydraulic Frame)

Code	65776
Working Width	6145mm
Transport Width	2500mm
Parked Height	3000mm
Length	1745mm
Tines	240
Weight	630kg
Depth Wheels	4
Frame	Hydraulically Folding
Steps Kit	Not included as standard
Price	£6710.00
