

H/D Gripper (wrapped bales)

OVERVIEW

The Heavy Duty Gripper handles bales from both ends where the plastic is thickest, minimising accidental perforation of the plastic. The bales are held secure by two "T" frames, one is hydraulically pushed against the bale. Three positions for front arm and ram to handle both round and square bales.

FEATURES

- Heavy duty construction to withstand the demands of modern telescopic handlers
- Smooth CHS "T" frames to protect from tearing of the bale wrapping
- Opening 1565mm - Closed 470mm
- Three positions for front arm and ram to handle both round and square bales
- Rams, hoses and couplings included
- Brackets sold seperately
- Working pressure should not exceed 200 bar
