

## Hydraulic Swing Round & Telescopic Arm (Post Hammer)

### OVERVIEW

The Browns Hydraulic Swing Round Post Hammer with Telescopic Arm is the perfect solution for farmers and contractors needing to install extensive fencing quickly and accurately.

This robust, tractor-mounted unit features a hydraulically operated swing-round mechanism and a telescopic arm, providing up to 400mm of side shift for precise post placement. The hydraulic mast tilt operates in four directions, while three height-adjustable legs ensure stable and level operation on uneven or undulating ground.

With a powerful 200kg hammer, this post driver is capable of driving in heavy-duty straining posts with ease. A rubber-topped post cap protects the integrity of each post during installation.

Designed for maximum productivity and ease of use, the Browns Post Hammer with Telescopic Arm delivers outstanding performance in demanding fencing applications.

## FEATURES

- Compatible with Category 2 three-point linkage
- 200kg hammer delivers powerful and efficient post driving
- Hydraulic swing-round for precise positioning
- Hydraulic telescopic arm provides 400mm of side shift for enhanced reach
- Four-way hydraulic mast tilt for versatility on uneven terrain
- All hydraulic rams fitted with check valves for safety and stability
- Rubber-topped post cap protects and secures posts during operation
- Integrated spirit level on mast ensures accurate, vertical driving
- Adjustable legs on both mainframe and mast for stable use on sloped ground
