

## Manual Swing Round (Post Hammer)

### OVERVIEW

Ideal for farmers carrying out fencing installation or repairs, the Browns Manual Swing Round Post Hammer offers a cost-effective yet versatile solution for managing stock fencing.

Featuring a simple pin-action mechanism, the swing-round arm can be quickly positioned into five preset locations for convenient post placement. The mast angle can be adjusted up to 15° using a manual turnbuckle, allowing for accurate alignment on uneven ground. Adjustable legs provide added stability, ensuring safe and effective operation in a variety of terrains.

Equipped with a heavy-duty 200kg hammer, this unit is capable of driving in straining posts with ease. A rubber-topped post cap helps protect posts during impact, maintaining structural integrity throughout the installation process.

Reliable, durable, and easy to use, the Browns Manual Swing Round Post Hammer is a practical choice for everyday fencing work.
