

Super Buzzard 3 (3x 800mm / 2x 1200mm Bales)

OVERVIEW

The **Super Buzzard 3** is a high-performance, heavy-duty bale grab designed for handling up to 3 x 800mm bales or 2 x 1200mm bales with ease. Built for durability and reliability, it is hydraulically controlled and equipped with twenty claws fixed within a rugged steel frame, ensuring maximum strength during operation.

A single side bar is included to align the bales accurately, and the grab is compatible with most tractor loaders and telescopic loaders, making it versatile for a wide range of applications.

For enhanced efficiency, all claws enter the bales simultaneously. When fitted with the optional 3-ram solenoid diverter, the claws can be operated in individual sets, providing additional flexibility and control for different bale handling needs.

FEATURES

- 20 hardwearing cast steel claws for superior strength and durability
- Claws enter the bales simultaneously; with the optional 3-ram solenoid diverter, claws can be engaged in individual sets for enhanced control
- Robust box-section design for added strength and long-lasting performance
- Equipped with a parking leg for secure and stable storage
- Double-acting hydraulic rams for improved bale penetration and handling
- Compatible with both telescopic handlers and tractor front loaders
- Includes hoses and couplings for quick and easy setup
- Brackets available separately
