

Turbo Jet (pneumatic applicator)

OVERVIEW

The Turbo jet is a versatile and accurate pneumatic applicator to meter and spread most small seeds from 8 outlets with 8 or 16 spreader plates. Use the Turbo Jet with a Browns Grassmaster Harrow as a grass seeder when undersowing or rejuvenating pasture. A 12 volt motor drives fluted feed rolls that meter seeds into the individual air tubes. High capacity electric fans ensure a reliable spread, and the versatile feed mechanism easily adapts for different rates and products, and a selectable agitator prevents difficult grass seeds from bridging. Available with two control options.

The VS-2 control system gives 24 motor speeds 'on the go' adjustment and can be fitted with a GPS receiver or land wheel to automatically maintain application rates as forward speed varies.

The i-CON control system is an extremely comprehensive GPS based colour touch screen automatic control system with numerous features. It is capable of Precision Farming automated variable rate application, working from a seeding plan. The RDS i-CON system automatically maintains a preset application rate as forward speed varies, with on-the-go manual up and down adjustment of rate from the target. The i-Con monitors forward speed by GPS and controls the feed roll speed as required. Constant comparison and balancing of forward speed versus feed motor speed ensures that an extremely accurate and reliable seeding rate is maintained.

FEATURES

- Complete with VS-2 or i-CON controls
- 5m fused power lead and 6m connector cable
- Twin fans for optimum airflow
- Electrically powered hopper agitator to prevent grass seed bridging
- Waterproof, large capacity 240 litre semi translucent hopper
- Supplied with 8 - Y connectors and 16 spreader plates
- Supplied with banking rollers and air stoppers to reduce outlets
- Supplied with flexible tube and universal brackets for 8m wide
- Supplied with 2 sets of feed rolls. - Individual small seed/rape rolls per outlet for accuracy.
High output grass seed rolls for high rate seeding
- Fitting brackets and steps included as standard

SPECIFICATIONS

Turbo Jet VS-2

Code	53134
Capacity Litres	240
GPS	Not included
Price	£5150.00

Turbo Jet i-CON

Code	53411
Capacity Litres	240
GPS	Included
Price	£6875.00
