

Compact Tractors (CT1) (Post Hammer)

OVERVIEW

The Browns CT1 Post Hammer is specifically designed for use with compact tractors, offering an efficient and cost-effective solution for maintaining and repairing fencing. This durable attachment streamlines fencing tasks, reducing both labor and time requirements while ensuring reliable performance.

Perfect for agricultural and landscaping applications, the CT1 provides powerful post-driving capabilities, making it easier to manage fencing projects with minimal effort. Its compact design allows for easy maneuverability in tight spaces, offering flexibility and control in all conditions.

Cost-effective, efficient, and easy to operate, the Browns CT1 Post Hammer is the ideal tool for maintaining and repairing fences with your compact tractor.

FEATURES

- Compatible with Category 1 three-point linkage
- 120kg hammer for efficient and reliable post driving
- Rubber-topped post cap securely holds and protects posts during installation
- Manual side tilt adjustment for precise positioning
- Vertical pulley mechanism raises the hammer, allowing for close coupling to the tractor without contacting the cab
- Removable legs for safe and stable parking
